

MLC
FOUNDATION

TODAY'S CONTRIBUTION IS TOMORROW'S LEGACY

MLC is built on a legacy of generosity; from the early contributions of the Methodist congregation to purchase the land and build the Centenary Building to the collective efforts of our College community to raise funds for the Meredith Taylor Health and Sports Centre. The generosity of parents, students, Collegians and friends has enabled generations of girls and young women to benefit from learning on our extraordinary campus.

A LIFETIME OF ADVENTURES

You can make your own contribution to MLC's rich history of philanthropy. Help us complete this leading-edge environment that will enhance our girls' learning adventures, opening their minds to a world of opportunity.

Our Junior Years' Redevelopment will reaffirm MLC's reputation as a leading and innovative school.

- The new building connects our Junior Years more effectively to the rest of the campus.
- Flexible classroom spaces allow for collaborative and quiet spaces according to student learning needs. The indoor and outdoor spaces seamlessly connect and are designed to fire the imaginations of our girls.
- New drama and music facilities are utilised by Middle and Senior Years' girls, in turn broadening the use of our existing facilities.
