WHY SHOULD I CONSIDER GIVING TO THE MLC FOUNDATION?

The College facilities that exist today were achieved through the generosity and foresight of past and present MLC community members. Tuition fees alone will not secure the long-term future of MLC as they only cover the College’s annual running costs. In essence, tuition fees pay for education, and any provision for scholarship opportunities and capital expenditure must come from the generosity of the wider community.

An MLC education is varied and holistic, so that each individual will thrive. Continued investment in the College will provide generations of girls and young women with an education that prepares them to successfully enter the world as tomorrow’s achievers and leaders.

WHAT IS THE CIRCLE OF SUCCESS?

The Circle of Success is about the power of collective philanthropy and decision making at MLC. The aim is to bring the MLC community together to fulfil impactful College projects and educational opportunities to benefit current and future MLC students.

In 2015, the Circle of Success enabled the transformation of the Biological Science Laboratory, and an extensive upgrade of the audio visual equipment in Hadley Hall.

The Circle of Success provides a wonderful opportunity to role model philanthropy from a familial perspective with 100 per cent of member contributions given to the successful project/s each year.

HOW IT WORKS

The idea is simple – the aim is to attract 100 MLC community members, each giving a minimum of $1,000 towards a cooperative gift to the MLC Foundation.

Each member is then entitled to one vote for the project they would like to see funded. Each year, the project with the highest number of votes will be fulfilled, providing significant benefit to MLC students and an overwhelming sense of member satisfaction.

The 2016 Circle of Success will be open for membership from October 2015 to 31 May 2016.

Join a passionate group of MLC community members to vote and have your say.

The projects will be released in 2016 prior to the vote night in June. An evening of celebration is held as the projects are presented, the vote takes place and the winning project is announced.

A sundowner in Term 3 will provide another chance to strengthen member networks and friendships.
